

# WHIRLWIND PLUS

## WIND & SOLAR POWERED ROOF VENTILATOR

*\* Whirlwind Plus is an Add-on to the standard Whirlwind Roof Ventilator.*

**The Whirlwind Plus includes:**  
15W Solar Panel, 36V Motor with high performance Fan Blade fitted into a collar, 2m of cables and fixings.

*\* Whirlwind Roof Ventilators are available in a Mill Finish or Colored Powdercoat Finish.*

- Combining Solar Power with Wind increases the Whirlwinds exhaust flow rate by up to 100%.
- Wind and Solar driven by day when you need it most - Wind driven at night when the heat load on the roof is gone and not so much exhaust required.
- Less numbers of units required than just wind powered alone.

## THE ULTIMATE PERFORMANCE IN NATURAL ROOF VENTILATION
