

# Sky Tunnel

## Commercial Project

- Site:** Nippon Express - Philexcel Business Park, CFZ, PHILIPPINES
- Task:** Eliminate the need for electric lighting in the warehouse during daylight hours.
- Application:** Warehouse.
- Solution:** 12 x 535mm Warehouse Kits (1.5m), 12 x 535mm Warehouse Kits (0.6m with Diffusing Dome) & 6 x 535mm Warehouse Kits (0.3m with Diffusing Dome).

### Result:

Nippon Express are very impressed with the Daylighting provided by the 30 x Sky Tunnel XL<sup>2</sup> in their new warehouse. There is no need for electric lighting in the warehouse most days therefore reducing operating expenses considerably. Nippon Express utilized a customized Sky Tunnel daylighting solution, as the standard Sky Tunnel warehouse kit would have impeded the use of some top shelves of the pallet racking.
